

New Locksmith I Phone APP Will Help Save Children's Lives

Pop A Lock, which is the largest locksmith company in the country, has recently announced that it will team up with the Locksmith Locator I Phone app to service over 4000 communities throughout the country.

FOR IMMEDIATE RELEASE

February 9, 2010 - Locksmith industry giant Pop A Lock is entering into a new partnership with the Locksmith I Phone App "Locksmith Locator" to offer a unique service to people all over the country.

It is believed that this Locksmith App will be able to help save the lives of countless children by reducing the response time of the locksmith and the amount of time that a child may have to be locked in a vehicle on a hot or very cold day.

Every year in this country, children die because they are locked in a car and their parent or guardian is unable to track down a locksmith in time. These parents are usually unaware of how much danger these children are in until it is too late, but the new Locksmith I Phone App and Pop A Lock promises to make things much safer and easier.

Perhaps the best part of this program is that it is free to use, so if your child is locked in a vehicle, you will not have to pay for the locksmith. The Locksmith App is also free to download on I Tunes, so make sure that you take advantage of this today.

The Locksmith App, which was developed by Creative One Media, allows users to contact a local locksmith with one simple touch of a button. The app will automatically send the locksmith information on your exact location and help will arrive almost immediately.

The Locksmith I Phone App will actually be able to provide assistance faster than current GPS technology, which is definitely something positive to consider, especially for those who have been let down by GPS in the past.

Pop A Lock also offers great rates on all other types of vehicle problems and can even handle residential and commercial lock changes. This company is a one stop solution for all of your lock needs, but is particularly proud of its Locksmith App.

Emergency Door Unlocking Program (EDU):

Fee unlocking service when a Child is locked in the vehicle! ***

In participating locations the EDU program provides communities with a safe, fast solution to a situation that occurs daily. Pop-A-Lock is committed to keeping children safe and preventing accidents from becoming tragedies, which is why emergency door unlockings are handled with priority and usually in 20 minutes or less. Developed to assist EMS, police and fire departments in entering locked vehicles, the EDU service is available 24 hours a day, seven days a week, 365 days a year. Pop-A-Lock has responded to 100's of thousands of EDU calls since its inception.

*****ALWAYS CALL 911 TO REPORT IF A CHILD IS LOCKED IN A VEHICLE.** Pop-A-Lock can only respond in areas where we have bona fide franchisee that can respond in a timely manner. Calls for a service outside of our reasonable coverage cannot be responded to in a timely manner. Always, physically CALL us to identify that a child is locked in a vehicle!!! Do NOT just request service through the locksmith locator.

Pop-A-Lock currently provides service to more than 4,000 communities nationwide. The company was founded in 1991 in Lafayette, LA., by local law enforcement officers. For more information about the EDU program, go to www.popalock.com

Pop-A-Lock franchises are available in the US, Canada and Mexico.
