

THIS IS WHAT THE EPA HAS TO SAY ABOUT OZONE.

Ozone generators that are sold as air cleaners intentionally produce the gas ozone. Often the vendors of ozone generators make statements and distribute material that lead the public to believe that these devices are always safe and effective in controlling indoor air pollution. For almost a century, health professionals have refuted these claims (Sawyer, et. al 1913; Salls, 1927; Boeniger, 1995; American Lung Association, 1997; Al-Ahmady, 1997).

Some vendors suggest that these devices have been approved by the federal government for use in occupied spaces. To the contrary, NO agency of the federal government has approved these devices for use in occupied spaces. Because of these claims, and because ozone can cause health problems at high concentrations, several federal government agencies have worked in consultation with the U.S. Environmental Protection Agency to produce this public information document.

More information on this can be found at:
www.epa.gov/iaq/pubs/ozonegen.html

**SAFE FOR
PEOPLE, PETS,
AND THE ENVIRONMENT.**

Our product is head and shoulders above anything else on the market. Products currently used in the hospitality industry, like Ozone machines and Ozone Sprays are known to be expensive. They are labor intensive, damaging to the environment and they are not safe for use around people.

Our product is affordable and it does not release any harmful toxins into the air. It leaves virtually no carbon foot print.

Biocide System's product is perfect for regular use in hotels, motels, restaurants, restrooms, locker rooms and spas to remove unfavorable odors including those caused by mold, smoke, and pets.

Biocide System's product can be purchased online at **BiocideSystems.com**

It is currently available in two formulas, Quick Release and 30-Day Timed Release starting at \$15.95. The Biocide Systems Room Shocker is also available online to commercial outlets at a discounted volume rate.

459 East 4th Street, Los Angeles, CA 90013.

Biocide Systems is dedicated to creating a cleaner, safer and healthier planet for us, our children and for future generations.

All Biocide products are
EPA (Environmental Protection Agency) approved.

Revolutionary Odor Management and Decontamination Tools That Kill Germs and Odors with Ease

**NEW TECHNOLOGY
Chlorine Dioxide Disposable Generator
for the Hospitality Industry**

THE WORLD'S FIRST CHLORINE DIOXIDE DISPOSABLE GENERATOR FOR THE HOSPITALITY INDUSTRY

Revolutionary Odor Management and Decontamination Tool Kills Germs and Odors with Ease

Biocide Systems Room Shocker is a complete decontamination and deodorizing system that eliminates the odor problem at the source, efficiently and economically. Using a patented and revolutionary, Antimicrobial Vaporizing technology.

Room Shocker is guaranteed to disinfect and completely deodorize any room in as little as 6 hours leaving the area free of any offensive and stubborn odors, bacteria and microbes.

The Room Shocker packages the disinfecting super power of Chlorine Dioxide into a small, affordable and easy-to-use delivery system.

Biocide Systems Room Shocker is ideal for the hospitality industry because it works safely, quickly and effectively to remove odors caused by cigarette and cigar smoke, mildew, vomit garbage and even pets.

The non-toxic Chlorine Dioxide vapors released by the Room Shocker move through the air deeply, penetrating any porous surface, killing odors and microbes in the process.

Chlorine Dioxide is commonly used in facilities that require the highest levels of sanitation and odor management including hospitals and food processing plants but has been cost prohibitive for other industries and applications until now.

Now, thanks to Biocide Systems Room Shocker, Chlorine Dioxide is accessible in an inexpensive easy to use small disposable, portable device. That delivers the benefit from Chlorine Dioxide to the hospitality industries.

ROOM SHOCKER QUICK RELEASE FOR MAXIMUM STRENGTH

It will safely and easily eliminate any severe odor including cigarette and cigar smoke, pet urine, vomit, soured milk, mold, mildew and bacteria, skunk etc.

Room Shocker will also decontaminate by destroying harmful pathogens, spores and fungi that can lead to diseases and staph infections.

Room Shocker dramatically changes and improves the air quality alleviating allergy symptoms.

Room Shocker delivers the benefits of Chlorine Dioxide directly to your environment!

Decontaminates, disinfects, and completely deodorizers in under 24 hours, any enclosed environment, large or small, getting rid of problematic odors, not by masking them, but by eliminating them at their source where it really counts.

Gets rid of smoke, mold, bacteria, and chemical odors!

ROOM SHOCKER 30 DAY TIME-RELEASE

Room Shocker 30 Day Time-Release Works great as a follow-up to the Room Shocker Quick-Release. While its not design to eliminate sever odors quickly like Room

Shocker Quick-Release, it is designed to maintain an odorless and sanitary environment over an extended period of time.

Room Shocker 30 Day Time-Release will inhibit the growth and or prevent any new bacteria, mold, mildew, fungus, spores and any dangers pathogens from developing while maintaining the air quality at toxic free optimum level delivering a clean and odor free environment.

Unlike our Quick-Release products the Time-Release products allow you to stay safely and comfortably in the room while the product is working.

All orders will come with an equal amount of table top tents that say:

For the highest standard of health and comfort this room has been Sanitized and Deodorized By,
Biocide Systems
Keeping Our Environment Clean and Safe!

AVANFLEX

Revolutionary new technology that delivers the disinfecting power and odor management benefits of Chlorine Dioxide. Chlorine Dioxide has only been available for used in facilities that require the highest levels of sanitation and odor management until now, thanks to Biocide Systems family of Chlorine Dioxide generating products.

Never before available, Avanflex™ can be made into a liquid Chlorine Dioxide solution, in 10-15 minutes by simply placing the pouch in a 5 gallon, 10 gallon or 35 gallon bucket or dispenser to make a solution of 5ppm to 100ppm for industrial and commercial use. Avanflex technology brings the power of Chlorine Dioxide to small and medium size industries to protect from pathogenic bacteria, viruses, fungi, mold spores, and VOC's.

- Multifunctional uses on surfaces as: Deodorizer, Disinfectant, Sanitizer, Sterilizer. Avanflex can be used in Hospitals, healthcare facilities, food processing, gyms, homes, even flood damaged spaces.
- Effective against biofilm, and kills bacteria hiding underneath it.
- Avanflex™ ClO2 solution can be used for mopping, spraying, soaking, dipping and flooding
