

## GearHost Inc. Continues Long-Standing Relationship with SmarterTools

GearHost Inc. is proud to announce their continued partnership with SmarterTools Inc to distribute SmarterTools software as an authorized bundle provider.

Under the terms of the partnership, GearHost Inc. will provide SmarterMail 6.x, SmarterTrack 4.x, and SmarterStats 5.x to qualified dedicated server clients at no additional cost. The software bundle is valued at \$800.

“We are very excited about our continued partnership and the new license options for SmarterTools software. It allows our valued customers to not only start off with a robust solution but the ability to scale that solution over time which directly relates to how we offer our solutions at GearHost.”, said Ryan Kekos, CEO of GearHost Inc.

SmarterMail is a full-featured Windows email server with a fully scalable infrastructure, unparalleled stability, and advanced collaboration features. SmarterTrack is a powerful help desk application built for tracking, managing, and reporting on customer service and communications, including sales and support issues. SmarterStats is a detailed Web log analytics tool that allows you to identify Web trends and analyze statistics so you can run your online business at maximum efficiency.

### About SmarterTools

Founded in 2003, SmarterTools Inc. is an information technology-management software company based in Phoenix, Arizona. SmarterTools builds a Windows mail server, customer service software, and a Web log analytics reporting tool that simplify and automate the day-to-day IT operations of businesses and hosting environments in over 100 countries. Additional information about SmarterTools Inc. and the SmarterTools product line is available at the company web site: [www.smartertools.com](http://www.smartertools.com).

### About GearHost

Established in 2000 and incorporated in 2001, GearHost Inc. is a privately owned company. As a Microsoft Gold Certified Partner GearHost has a strong focus on Microsoft technologies. Our Dynamic Dedicated Server Technology was developed in partnership with Microsoft, Dell and EMC to allow our customers to scale their solutions with GearHost in real-time. Our shared hosting customers receive full support for all versions of the .NET framework, as well as ASP, PHP, SQL 2005, SQL 2008 and MySQL. GearHost offers dedicated server clients a huge software savings with the addition of SmarterTools software bundle. Additional information about GearHost Inc. and the available services are available at the company web site: [www.gearhost.com](http://www.gearhost.com).
