As more people look for ways to be greener, students, teachers and parents play a big role in shaping eco-friendly habits at school. And now, it's time to reward them. For the second straight year, IC Bus, the nation's largest school bus manufacturer, is looking for **AMERICA'S GREENEST SCHOOL**.

U.S. Olympic gold medalist Summer Sanders and up-and-coming band The Maine helped kick off the 2010 program. Students nationwide are encouraged to submit an entry – such as a video, essay, song – by March 8 that illustrates their vision for a greener school. America votes on the winner and the grand prize is a hybrid school bus (\$150,000 value) and a \$20,000 green makeover for the school. The winning student will receive a \$3,000 scholarship.

MEET THE BUS!
