FOR IMMEDIATE RELEASE  
9 A.M. EDT, March 1, 2010

## **BROWARD COUNTY PUBLIC SCHOOLS (BCPS)**

### **EXCEEDS 1 MILLION DOLLARS IN ONLINE SALES IN 6 MONTHS**

CHANTILLY, VA, MARCH 1, 2010: Online School Management Systems Inc. and Broward County Public Schools (BCPS) are proud to announce the successful deployment of Online School Payments (OSP). As of March 1, 2010, BCPS has processed over 1 million dollars in online transactions for a variety of school activity funds. The OSP solution provides an easy online interface for parents and staff to pay for school activities online, thus reducing the workload on internal staff, decreasing fraud and eliminating the need for children to carry cash and checks to school. School activities include field trips, yearbooks, dances, and daycare. The OSP initiative was deployed less than six months ago as part of a joint development project with Online School Management Systems Inc.

**Online School Managements Systems (OSMS)** is a leading provider of online software solutions for K-12 school districts. OSMS is dedicated to developing dependable, full featured online software solutions to the K-12 market while providing responsive and knowledgeable support to their customers.

OSMS is a wholly owned subsidiary of Acelo Solutions; both companies are headquartered in Chantilly Virginia. ###
