

THE SLANTS

Chinatown Dance Rock

Presented by

Saké

There's nothing more perfect to come home to after a long tour than a cool glass of G Saké and a hot bowl of pho. After that, I'm ready for more!

- Simon Tam (bass, The Slants)

"I realize that it is not very classy to drink straight out of the bottle, but I love G Saké so much, sometimes I just can't wait to find a glass."

- Tyler Chen (drummer, The Slants)

Drink Saké Not Bombs

Fine saké should be enjoyed, on it's own, not dropped into a pint of beer where it's lost in the void of hops and water.

G is for Genshu, an undiluted, unapologetic style of saké. Straightforward and honest with it's complex fruit flavors and dance worthy spiciness. Learn more at:
