

# Protect Your Children & Family with PC Pandora Monitoring Software

## The Internet...

As a parent you lock your doors and windows to keep the "bad" people away from your children. But in the age of cyberspace, the "bad" people can get into your home every time your child connects to the Internet.

### PC Pandora Features:

- Records User Activity 100% silently (Running Visually Also Available)
- Password Protected For Your Eyes Only
- Sends Captured Data Directly To Your Email When You're Away
- Blocks Internet Websites You Choose
- Can Print Captured Data
- Time Schedule Your PC Monitoring
- Monitor Only Specific Users Of Your PC
- 24 Hour/ 7 Days Per Week Support

- **Pedophiles are using the Internet** as a tool to strike up conversations with children to become friends with them, and in time lure them to a meeting.
- Ranging from "harmless fun" to viciously intended attacks, **cyberbullying** can have extremely damaging effects on young, impressionable minds.
- If your child, or their friends, uses your computer for **illegal file sharing** (i.e. movies and music), **YOU can be held accountable.**

## Options As A Parent?

As a parent, you can choose to never let your children access the Internet, but this could cause harm to your child's education, since so much schoolwork today depends on the Internet. Keeping them off of the Internet really isn't an option.

You also can't be looking over your child's shoulder 100% of the time to see what it is they do online. Your child wouldn't like it and you don't have the time.

What if you could monitor your child's activity, record the websites they visited, see any emails or chats they sent or received, and know about the content they accessed online? **You can!**

### PC Pandora Automatically Records All:

- Screen content
- Keystrokes
- Login Names
- Passwords
- Running Programs
- Websites Visited
- Emails
- Email Attachments
- P2P Downloads
- Internet Search Queries
- Webcam Output
- MSN Messenger
- Yahoo Messenger
- AOL Messenger
- ICQ Messenger
- Trillian Messenger
- MySpace Messenger
- Facebook Messenger

## The Solution!

With **PC PANDORA**, you can **monitor and record all activity on your family PC**. You will be able to view detailed screen captures of activity and know everything that happens on the computer. From instant messenger chats to emails to programs and applications run and a whole lot more, you can see everything. This allows you to sit down with your children and together review their Internet activity. You can discuss with them what you approve of, and disapprove of. (Check out website – [www.pcpandora.com](http://www.pcpandora.com) – for a full details on the program!)

## How to Get It...

**PC PANDORA** is incredibly easy to install and set up. Just visit our website at [www.pcpandora.com](http://www.pcpandora.com) and follow the pages that lead to download/ checkout. You can download the program directly from the web site – no waiting for any boxes in the mail! Once downloaded, follow the installation steps, reboot, and begin using **PC Pandora**... all within 5 minutes! You may also try it before you buy it!

According to the **National Center for Missing and Exploited Children** (NCMEC), online predators approach 1 in 7 children on the Internet. In addition, only 27% of kids who receive unwanted sexual contact or content are likely to report it to a parent or guardian. 3 out of 4 kids never say anything! In a 2007 Online Bullying and Predators Survey conducted by the Kids/Teen Division of the safety organization Working To Halt Online Abuse, 28 percent of teens and pre-teens, ages 11 to 19, said that they have been the victim of online bullying, or cyberbullying.
