THE OFFICE SOFTWARE

Improve office productivity.
Protect your assets.
Eliminate cyberslacking
and so much more…

How **The Office Software** will help you

theOS will...	Did you know?	The 411	How The Office Software does it...
End Cyberslacking	30-40% of lost productivity is accounted for by cyberslacking.	Cyberslacking is an epidemic. Recent surveys find that employees are wasting about an hour per day on the internet.	The Office Software's ability to record all activity let's you hold employees accountable for their Internet usage.
Stop Sexual Harassment	27% of Fortune 500 organizations have defended themselves against claims of sexual harassment stemming from inappropriate email.	Traditionally, employers have been responsible and liable for the actions of their employees in the workplace.	Having theOS will allow you to stop harassment before it gets serious.
Protect Your Assets	58% of industrial espionage is perpetrated by current or former employees.	Employees sharing sensitive data with competitors, and/or using sensitive data to become a competitor are all real scenarios that can affect your business!	The Office Software will let you know if someone is trading or selling your company's secrets …or just plain old stealing from the company wallet!
Track & Monitor Work Progress	In a multi-tasking environment, having employees mark and track their own progress on various projects for different clients is essential.	Timecards and timesheets are the traditional way to keep track of employee progress on multiple projects. But how accurate are they?	The Office Software gives employers the ability to cross-check employee reported data against 'true' recorded data.
