

Ten minutes ago this was a recessed light.

**Install in three easy steps
without an electrician.**

1. Simply install the locking ring around any recessed light, using fasteners provided.
2. Attach the decorative trim to the shade.
3. Place trim in locking ring and secure with screw.

US PATENT PENDING

Imagine being able to turn a dated hallway or lobby into a gallery of art glass lights. re•cesso™ offers exclusive collections of dramatic art glass or hand-formed resin pieces that are designed to be installed over existing recessed lights, without touching the wiring. This virtually eliminates downtime as regular engineering crews, taking only minutes per light, can handle installation.

re•cesso is committed to the environment. We work with all our artists and manufacturers, located here in America, to use recycled and recyclable materials whenever possible. Also, every time one of our pieces is installed, it gives that fixture new life and keeps it out of a landfill.

The style and color diversity of our blown artisan glass, slumped glass or hand-painted, hand-poured resin pieces provide a broad range of applications—including those challenging spaces that demand a low-profile solution.

See our inspiring styles on these pages, or visit www.recessolights.com.

re·cesso transforms recessed lights into works of art.

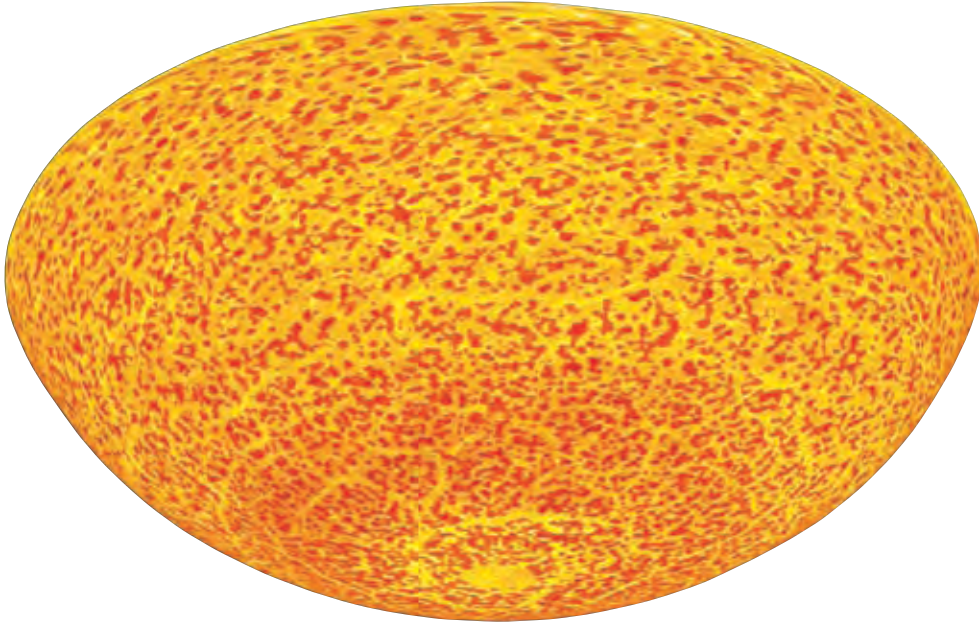

Rob Adamson Signature Collection

For over 40 years, Rob Adamson has pursued a love of handblown glass. His vision of glassmaking has created a highly successful studio and training ground for young artists in the Pacific Northwest. re-cesso is proud to offer a dramatic collection of three inverted dome shapes from Rob. In addition to creating these pieces for us, Rob is also overseeing all of our glass production to assure consistent quality and color.

Hardware is available in standard finishes.

A. AMBER METAL | MODELS BG201/BG202

Size: 13.5" bowl/16" bowl

Color: Amber Bronze, includes real slivers of metal that react to the heat when blown to create a distinctive and individual pattern.

B. CRACKLE | MODELS BG211/BG212

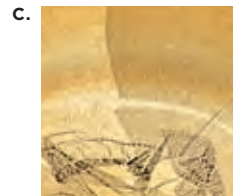

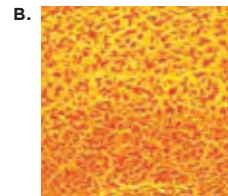

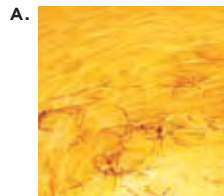

Size: 13.5" bowl/16" bowl

Color: Amber with a crackle finish creates a completely unique pattern in each piece. Shown above.

C. IVORY LEAF | MODELS BG221/BG222

Size: 13.5" bowl/16" bowl

Color: Warm Ivory with layers of silver leaf create a natural, leafy look to the finish.

Blown Glass Collection

Hand-blown by artisans in the Pacific Northwest, our broad range of beautiful glass pieces add dramatic color and style to what was before merely light.

Hardware is available in standard finishes. Matching wall sconces available.

Eco-Inlay Resin Collection

We're excited to offer this innovative collection made using 3form's Ecoresin, which contains at least 40% recycled content. This unique collection features natural material inlays such as silk, thatch, and grasses. As an added benefit, pieces made with this resin resist breaking, making them an excellent choice in demanding applications like hotels, lodges and other high-traffic hallways.

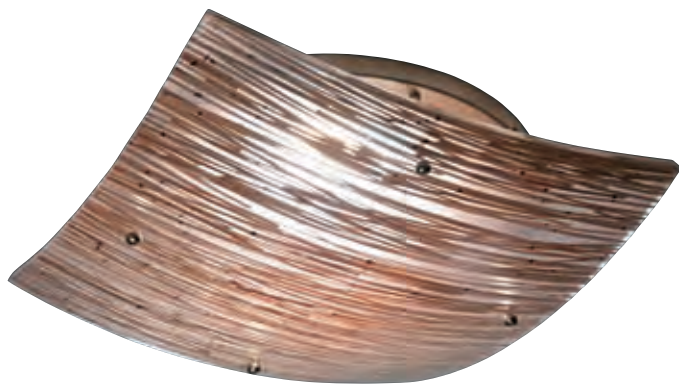

Available in 12 standard inlays. Custom solid colors and inlays available.

Arc comes with coordinating glass side diffusers. Hardware is available in standard finishes.

ECO-INLAY ARC | MODEL ER100

Size: 12" W X 16" L

Shown in Connections Pure

ECO-INLAY SQUARE | MODEL ER110

Size: 11.5" square

Shown in Thatch

Poured Resin Collection

Add the illuminated feel of wood or stone to your environment with these hand-painted, poured resin pieces that are inspired by the beauty of nature. They are also available in pure colors and metallic laminates.

A white diffuser is offered with or without 4" downlight center hole. Hardware is available in standard finishes. Coordinating wall sconces available.

re•CESSO

All products are designed by re•cesso lights.
US Patent Pending

PLEASE NOTE:

re•cesso products are made by glass and resin artists and are individually created. Small blemishes, bubbles and variations in the color of the glass and resin are a normal and desired result of the handcrafting processes.

Standard colors selection are suggested, but custom colors and finishes are encouraged.
