Free Site Totally Wicked Coupon Provides The Top Electronic Cigarette Coupon On Premium Nicotine Liquid And Electronic Nicotine Inhaler Models

Soaring costs for tobacco cigarettes across North America have led smokers everywhere to look for cigarette alternatives. Electronic cigarettes together with nicotine liquid fluids, which are also known as e liquid, offer a satisfying alternative with significant cost savings typically in the range of 70%. This new technology provides smokers a viable alternative to tobacco that will save them hundreds to thousands of dollars in both short and long-term costs. With the introduction of a new free web service called totally wicked coupon, additional and convenient cost savings and electronic cigarette discounts on the absolute best e smoking models and e-juices are a click away.

"I have saved literally thousands of dollars ever since I switched to e cigarettes upon discovering them approximately 2 years ago. It is clear that many are suffering financially a great deal at this time, for smokers this can be an added pressure." Said the owner of totally wicked coupon.com, James Oliver. "My decision to launch this new website service was made to aid smokers everywhere by providing even greater price savings on the identical products, as well as newer models, that halted my 10 year plus use of tobacco cigarettes."

With the increasing awareness in North America of electronic smoking as an effective and cost-savings cigarette alternative, many suppliers have recently entered the market. Unfortunately many of these companies are offering low quality imitation and counterfeit electronic cigarette models, as well as unregulated imported e liquids. While appearing cheaper to the consumer, these electronic cigarettes and nicotine fluids are made to poor quality standards, can easily malfunction, stop working quickly and deliver poor performance and quality concerns.

Totally Wicked Products, available at a permanent discount of at least 7.5% through TotallyWickedCoupon.com, provide trusted quality and affordability.

Totally Wicked eLiquid, and parent company PillBox38 Ltd., have a clear mission statement. To provide customers with products that deliver. "We believe that we consistently achieve this with not only our nicotine fluids but also our full range of electronic cigarettes (aka electronic nicotine inhalators) and their accompanying accessories," states Jason Cropper, CEO and owner of Totally Wicked Eliquid and PillBox38 Ltd.

Originally a United Kingdom supplier of top quality nicotine liquid and eliquid products, Totally Wicked also has USA-based operations located in Florida to focus on the needs of the American E Smoking community. Providing top quality USA manufactured E liquids such as totally wicked's recently available Patriot Range which is completely manufactured in the United States, and uses the purest ingredients anywhere. Probably the best E Liquid in the states, the Patriot Range is made with pharmaceutical grade and USP certified nicotine which is identical to that found and approved for nicotine replacement therapy products like patches and stop smoking gums. the flavourings in the Patriot Range e Liquid are also USA manufactured and sourced using natural and nature identical flavourings only.
