How Can AJAXWorkspace Help

Case Study #1 – Retail Business

AJAXWorkspace is well fit into any kind of retail businesses as it can be utilized in the following ways:

1. Manage your customers information with our simple and easy-to-use contact management feature.
2. Coordinate and track day-to-day activities and tasks with our full-fledge task management feature.
3. Store and share purchase orders, invoices, quotations and many more with your co-workers in our secure and organize file management feature.
4. Publish organization-wide news to inform your co-workers about the start and end date of any upcoming promotion.

How Can AJAXWorkspace Help

Case Study #2 – Consultancy Firm

Consultancy firms are one of the many businesses that deals with lots of paperwork and most of the time these documents are always private and confidential specific to a particular client. With AJAXWorkspace, consultants can:

1. Manage each of their client case as a specific project to avoid information leakage and miscommunication.
2. Travel around without huge bulk of documents when meeting up with clients.
3. Schedule meeting with clients more effectively without any worries of overlapping of appointments.

How Can AJAXWorkspace Help

Case Study #3 – Education and University

In these modern days, college students will need to complete many projects and assignments which involve lots of collaboration and coordination among their team members. An effective collaboration and coordination tool will ensure a successful project. Here, AJAXWorkspace can help to :

1. Manage each member tasks and make sure everyone is well informed of the project schedule and progress.
2. Share project related files and documents among team members with complete versioning capabilities to avoid any miscommunication.

AJAXWorkspace Client Testimonial

Our clients choose us because:

- Rich functionalities
- Interactive user interface
- Ease of use
- Low Total Cost of Ownership (TCO)

“

Thank you to you and your team for the recent update to AJAX. Being able to attach more than one file in a task is a huge help. I really appreciate how responsive you have been and all the help you have given to me.

”
