CorasWorks®

Plug-and-Play Apps for SharePoint
## Applications in Minutes… Just Add Data

Everyone appreciates how easy it is to download and install apps these days. We're downloading and installing everything from simple, inexpensive apps for our cell phones to line of business apps for our corporate workplaces. It's immediate gratification, but more importantly, it's immediate business value.

CorasWorks provides that same immediate business value for Microsoft SharePoint. With CorasWorks, you can download and install SharePoint applications and have those apps up and running in minutes. All you have to do is add the data.

The CorasWorks App Store
www.CWAppStore.com

The AppEngine for SharePoint and plug-and-play business apps can be purchased and downloaded from the CorasWorks App Store at www.CWAppStore.com.

THE CORASWORKS APP STORE

The CorasWorks App Store is your one-stop shop for plug-and-play applications for the CorasWorks/SharePoint platform. There's no reason to invest time in custom development. With the App Store, you simply find the apps you need, download them, and then install, configure and use. You can be up and running with the majority of our Ready-for-Work apps in less than 20 minutes. All the apps in the App Store are built by CorasWorks and our certified Application Publisher Partners and are either offered free of charge or for a small fee. The AppEngine for SharePoint is also available for download from the App Store.

You can visit the CorasWorks App Store online and begin downloading applications today.

APPS + APPENGINE =
IMMEDIATE BUSINESS VALUE

Powered by the innovative AppEngine for SharePoint, users can download, install, configure, use and customize a wide variety of plug-and-play business apps from CorasWorks and its Application Publisher Partners. This powerful combination of apps and the AppEngine installs in less than 20 minutes and provides organizations with immediate business value on SharePoint.

Plug-and-Play Business Apps for SharePoint

Looking for specific business apps for your SharePoint environment? If so, look no further. CorasWorks and its Application Publisher Partners have developed a wide variety of plug-and-play business apps for SharePoint, and more are being built every week. Choose from Project Portfolio Management, Time Off Management, Task Management, Dashboards and more.

All apps carry the CorasWorks "Ready-for-Work" certification, which means the application is ready to download, install, configure and use. No custom code required and nothing needs to be installed on the server. Want more than one app? It's easy with our Ready-for-Work apps. All the apps are designed so they can be quickly integrated and used together in a single environment. The AppEngine for SharePoint is an innovative runtime environment for SharePoint. It is the key enabler for the plug-and-play business apps from CorasWorks and its Application Publisher Partners. In addition to the plug-and-play apps, the AppEngine also supports custom applications that are built by organizations themselves or by third-party service providers. And, you can have multiple apps from multiple vendors all running at the same time. You can even connect the apps together for a truly integrated environment.

The AppEngine for SharePoint

The AppEngine for SharePoint includes customization wizards so organizations can tailor the plug-and-play apps to meet their specific needs. It also supports multiple apps from multiple vendors. The AppEngine for SharePoint includes a rich feature set, including some of CorasWorks' most popular features like our Navigation and Roll-Up web parts, and several features of our One-touch Management System, such as the ability to lock down your components.

The AppEngine for SharePoint and plug-and-play business apps can be purchased and downloaded from the CorasWorks App Store at **www.CWAppStore.com.**

The CorasWorks Community

CorasWorks Community (**http://community.corasworks.net**) is a free, public community aimed at increasing business value for those deploying CorasWorks on SharePoint. Designed to encourage interaction and sharing among customers, partners, builders, developers and end-users, the CorasWorks Community features forums and blogs, the CorasWorks App Store, and a Resources section where you access videos, white papers, blueprints, how-to guides, and more to increase your understanding of CorasWorks software and applications.

INTERESTED IN BUILDING APPS FOR THE APP STORE?

The CorasWorks Application Publisher Program provides a complete and integrated process for building, publishing and distributing your CorasWorks-based business apps and processes.

Benefits of the Program include:
- Be in the forefront of the SharePoint application "wave"
- Get your app in front of thousands of potential users
- Earn "product" revenue – build it once, sell it many times
- Leverage the CorasWorks brand and marketing machine
- Penetrate more accounts – get your foot in the door
- Differentiate yourself from standard services firms.
