Rise & Shine®

Natural Sleep System

Verilux's Natural Sleep System helps guide the body's natural energy enhancers that regulate normal sleeping and waking. The System provides soothing and effective sleep and wake-up programs to help you fall asleep easily and wake naturally refreshed and rejuvenated. Advanced electronics offer an unlimited range of choices that include internal and external light sources combined with natural sounds, therapeutic programs and your favorite MP3 music or FM radio. The System progressively dims or brightens the lights while simultaneously decreasing or increasing the sound to create revitalizing, natural and effective sleeping and waking programs.

Sleep and wake naturally
relaxed and rejuvenated
