

Midbrook Medical

Anti-Microbial Copper Alloys

Made Entirely in the USA

Anti-Microbial Copper Alloy surfaces inherently fight bacteria.* Within 2 hours of contact, greater than 99.9% of bacteria* is killed.

Anti-Microbial Copper Alloys help inhibit the buildup and growth of bacteria* within 2 hours of exposure between routine cleaning and sanitizing steps.

Any product you have seen in stainless steel can be made from Anti-Microbial Copper Alloys by Midbrook.

*MRSA, Staphylococcus aureus, Enterobacter aerogenes, Escherichia coli O157:H7, Pseudomonas aeruginosa

Midbrook is EPA registered to build products using Anti-Microbial Copper Alloys
