

## Battery Powered Clear Grease Guns™

### *Powerful Solution Eliminates Cross-Contamination*

.....

It can and does happen – the wrong grease is applied to a piece of equipment – and the resulting problems can be expensive and time-consuming to correct. In fact, it has been estimated that 60 to 80 percent of bearing failures are caused by cross-contamination. LE offers Clear Grease Guns as a simple, cost-effective solution for eliminating cross-contamination.

Much more than just another grease gun, the Clear Grease Gun is a reliability tool enabling industrial operations worldwide to eliminate mistakes. It is the perfect addition to existing reliability efforts, playing a role in elevating lubrication standards, increasing accountability and raising overall safety awareness. Now available in convenient battery powered version, especially useful for lubricating hard-to-reach areas or equipment that requires frequent or large-scale lubrication.

### **Beneficial Qualities**

- ***Allow 100% visual identification***
- ***Eliminate cross-contamination***
- ***Enhance existing reliability programs***

### ***Clearly Reliable***

- Unit's 19.2-volt rechargeable battery provides powerful, efficient grease delivery.
- Extra long whip hose conveniently extends into hard-to-reach areas.
- Tubes are made of high-impact, fracture-resistant polycarbonate, capable of withstanding heavy use and high temperatures.
- Tubes fit many standard grease guns, making upgrades of existing guns easy and cost-effective.
- Collars are constructed of durable T6061 aircraft aluminum and will not rust.
- Collars are anodized and available in a variety of colors, perfect for when a secondary method of identification is required, such as lubricant type, application or department.

## Battery Powered Clear Grease Guns™

- Maximum pressure 8,500 psi
- High flow rate 4.9 oz (138.9 g) per minute
- 19.2 Volts of power
- Two 1,500-mAh rechargeable battery packs
- Battery charger (1-hour charging cycle)
- Includes 30" whip hose
- Holds 14½-oz grease cartridge
- Recommended for grease up to NLGI 2
- Multiple loading via cartridge, suction or bulk
- ⅜" NPT threads
- Air bleeder valve
- Hard plastic storage case
- Case pack quantity 1
- 1-year warranty

### Clear Grease Tubes

- High-impact, fracture-resistant polycarbonate
- Durable T6061 aircraft aluminum collars
- Variety of collar colors available for secondary identification, including: silver, gold, purple, blue, black, red, green
