

Kalamazoo Outdoor Gourmet™ 24-Inch Warming Cabinet Fact Sheet

Product Summary:

An outdoor kitchen first, the new Kalamazoo Outdoor Gourmet™ 24-Inch Warming Cabinet is a fundamentally different and fundamentally better option for keeping food warm. The cabinet design gives homeowners a larger and easier-to-access warm storage space. Two food shelves on full-extension stainless-steel slides accommodate a wide variety of food and serve ware sizes, water trays retain heat and ensure foods stay moist. Another industry first is found in the louvered design of the cabinet's door, providing styling and ventilation. The company's exclusive rain gutter engineering makes it weather-tight.

Product Details:

- The 24-Inch Warming Cabinet will be introduced to the public at the Kitchen and Bath Industry Show (K/BIS), April 16-18, in Chicago; available April 22 at www.KalamazooGourmet.com
