

Kalamazoo Outdoor Gourmet™ 2010 Cabinetry Collection Fact Sheet

Product Summary:

Kalamazoo Outdoor Gourmet™, makers of the widest and most diverse collection of weather-tight outdoor cabinetry, has completely redesigned the line for 2010. A new door and drawer design fully covers the front of each cabinet, giving kitchens a cleaner, sleeker look. All 24-inch cabinets now have the option of adjustable-height shelves, making each cabinet customizable. The line retains its exclusive rain gutter engineering that prevents water from entering cabinets.

Product Details:

- The company's redesigned cabinetry line will be introduced to the public at the Kitchen and Bath Industry Show (K/BIS), April 16-18, in Chicago, IL, and will be available April 22 at www.KalamazooGourmet.com. The collection features 29 styles plus accessories, providing an unmatched number of choices and design flexibility
- All cabinet doors now feature full overlay styling, magnetic catches and wind chains
 - Design option includes louvered-style doors, an industry first
- Adjustable height shelf system
 - New adjustable-height full-extension shelf system, available for all 24-inch cabinets, allows homeowner to customize vertical placement of up to 5 shelves within cabinets.
 - All shelf and drawer glides include an indentation to keep drawers closed and weather tight
 - Each shelf is 26-inches deep, 18.25-inches wide, and features sides that are 2.5-inches tall, ensuring items stay on a selected level
 - Waste and recycling insert can be added to any 24-inch base cabinet, even after the cabinet is installed
- Speed Clip Technology: already the fastest-installing line of outdoor cabinets, Speed Clip Technology, introduced in 2010, easily connects cabinetry, making installation faster by an additional 30 percent.
- Addition of another industry-first: the 24-Inch Warming Cabinet; features two food shelves, two water trays retain heat, moisture, accommodates a wide range of serve ware sizes
- Weather tight. Exclusive rain gutter engineering surrounds each opening, channeling water away from cabinet interior and drawers
- Fabricated by hand from heavy-gauge stainless steel, built to endure the harshest weather conditions
