

NURSE PRACTITIONER
BUSINESS OWNER

Education, Resources, and Support for Entrepreneurial Clinicians

Getting Started in Your **OWN** Practice.

Are you one of the hundreds of Nurse Practitioners who have asked, "How do I start my own practice?" If so, this might help!

On **Sunday, April 25, 2010**, we're going to spend the evening answering those questions and more.

You will learn:

- What you **MUST** do before you do anything else. Failure to take these steps **WILL** decrease your chance of success.
- Ideas for financing...and it does not have to cost as much as you have heard.
- Strategies you need to bring on a collaborating physician (IF you need them).
- The easy way to get credentialed. Credentialing is no fun for any of us, but it does not have to be difficult or completely time consuming either.
- How to get paid. Let's face it; cash flow to your business is like breathing is to your body. It's essential.
- The kinds of business and practices that are available to NPs.
- What your real job is and it's not what you think.
