

911eda, inc.

**Realize Your Concepts  
Through Our  
Quality Services Cycle**

**Decrease  
your time to market**

**Decrease  
your development cost**

**Increase  
your product quality**

### **The Quality Services Cycle**

**Links all steps and departments throughout the project development process**

**Envisions engineering and designing for manufacturability from the onset**

**Eliminates engineering and design errors throughout the process**

**Effectively tests and verifies prototype performance to project specifications**

**Completes verification of manufacturing documentation**

**Provides a smooth transition from design to manufacturing**

**Provides quality controlled production level fabrication and assembly**
