

networks that work.®

Voice. Data. Video.

Founded in 1989, **BBH Solutions, Inc.** provides turn-key technology services that help organizations utilize their wireline and wireless networks to communicate and collaborate in real-time across multiple workplaces. Our areas of expertise include converged voice, data, and video solutions, cabling installation services, and custom IT service plans. Our staff of expert engineers and project managers is qualified and cross-trained in several technology disciplines, with specializations in:

- **The BlackBerry® Solution**
 - Alliance Partner
 - BlackBerry® Mobile Voice Solutions (MVS)

- **Cisco Systems**
 - Advanced Unified Communications
 - Advanced Wireless LAN

- **Audio Visual**
 - Crestron
 - Extron
 - AMX

- **Video Conferencing**
 - Polycom
 - Tandberg

- **Microsoft Gold Partnership**
 - Networking Infrastructure Solutions
 - Security Solutions

- **VMware Virtualization**

- **Data Center Project Management**
 - APC
 - Liebert

For more than twenty years, we've been dedicated to delivering the best of breed in hardware and software solutions. Because of this commitment, we've earned a reputation with our clients as a "partner of choice" for converged network implementations that help companies take full advantage of their IT to meet their business needs.

BBH Solutions and BlackBerry: A long term relationship

BBH Solutions has been a BlackBerry solutions provider since the program's inception in 1999. We quickly grew, and remain one of the leading resellers of BlackBerry® Enterprise Server packages, client access licenses, and BlackBerry® Technical Support Services agreements in the United States. Beyond the sale, BBH Solutions has developed a staff of qualified personnel that can install, integrate, and maintain BlackBerry® environments throughout the country.

BlackBerry Mobile Voice Solutions (MVS)

Thanks to technology innovations in mobile communications, businesses have new opportunities to operate more efficiently while realizing a quick return on investment. The introduction of BlackBerry MVS has added a new dimension to the meaning of the word "mobility". By combining BlackBerry MVS with your BlackBerry Enterprise Server, all of your communications including:

- Voice
- Instant Messaging
- Email
- Multimedia
- Calendar
- Corporate Applications and Files

are integrated into a single, secure and managed "mobile unified communications" platform.

With expertise in both the Cisco Unified Communications and BlackBerry Enterprise Server environments, the BBH Solutions project team is uniquely qualified to design and integrate MVS into the corporate voice system. To learn how to *Mobilize your PBX the BlackBerry® way*, contact us at 888-BBH-3444.
