Celebration Florida: "Local Firm fueling the market in favor of the environment"

The new line of fuels will benefit all kind of motorists. The patented formulation have proven effective by emitting less harmful emissions, giving a better fuel economy and improving engine performance.

“Tailpipe emissions exhibit a significant improvement... Additionally, the improvement in the fuel economy is considered significant. The substantial decrease in NOx and HC emissions is considered conclusive and noteworthy.”

Locally owned Guidice Enterprises, Inc., a successful real estate investment and management company has partnered with an ambitious fuel distribution operation, Enviro Petroleum Corp. This new operation has a clear goal: to offer Green, Clean, Powerful Energy to the unbranded petroleum market, nationwide.

Luis Castro, BS in Mechanical Engineering and CEO for Enviro commented on this new fuel capabilities: “This new formulation emits up to 60% less pollution, delivers better mileage per gallon and increases performance by 8-12 percent over regular fuels.”

All of these claims are backed by independent laboratory and government tests across five continents. With the evidence to substantiate all of the claims, Enviro is working to develop loyal, environmentally conscience customers.

With respect to their expansion plans Tim Kelleher, COO mentioned what initiatives are on its way: “As of today we are initiating operations in Florida, Georgia and North Carolina, with goals to be nationwide within three years. Our expansion plans are ambitious, but are driven solely by the demand of consumers for a green line of fuels. Yes, that is correct; we are producing Green, Bio friendly fuels.

In addition to the environmental strategy, Enviro will take its combined 50 years of experience in offering the most cost effective merchant services pricing ever seen in retail locations. Enviro is so confident with the aggressive pricing, that they offer a \$500.00 reward for any retail location that cannot save money over their current credit card processing.

“Our expansion plan is driven by building a network of distributors nationwide that will be offering a one of a kind product with very attractive pricing. Helping the environment and saving consumers money with higher fuel efficiency is our commitment,” expresses Bob Guidice, President of the Board of Directors and CFO for Enviro Petroleum LLC.
