

Amberg Rail Solutions

Measurement Innovation

 Made in Switzerland

 **AMBERG**
TECHNOLOGIES

Clearance

Real-time, high precision clearance analysis

High Speed Rail / Light Rail

Guaranteed precision for slab track construction

Tamping

The innovative tamping survey solution

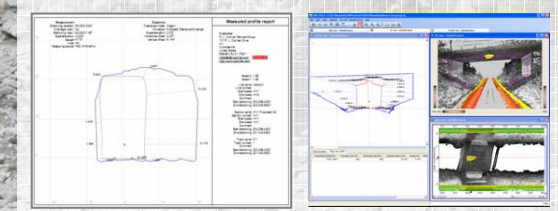

Survey

Highly efficient as-built surveying

GRP 1000

Tunnel Rehabilitation

On-site clearance checking & as-builts

Track Geometry

Fast and precise alignment, gauge & cant

GRP 3000

GRP 1000

Railroad Topo Survey

Data collection, geometry & clearance combined

GRP 3000

GRP 5000

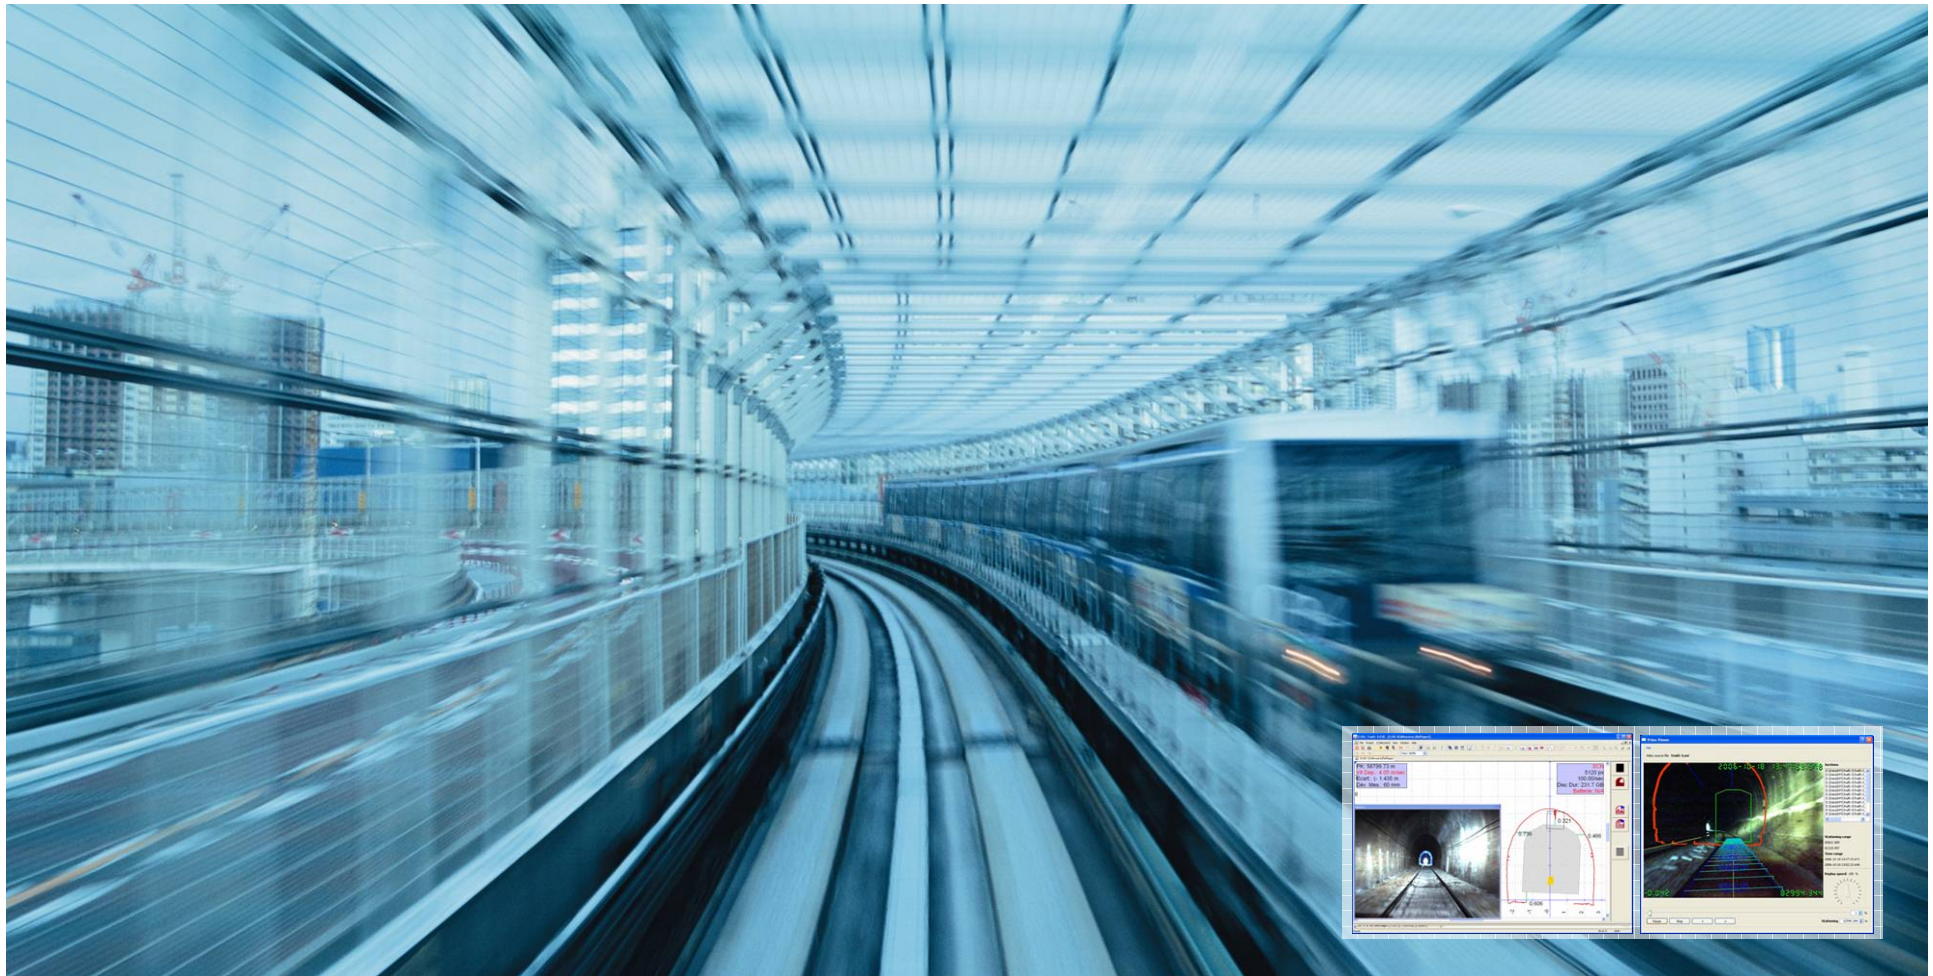

BIM Design

Precision scanning for BIM rail projects

GRP 5000

Rail Corridor Mapping

High speed clearance and asset mapping

X-Ride

World Wide Acceptance

Serving rail professionals across the globe
