

# Nivitol™

## Improved Skin Appearance

### **Market Overview**

People from all walks of life suffer from skin discolorations, age spots, and too much sun exposure that can cause excessive skin pigmentation. However, many skin care products on the market today have limited clinical substantiation, contain harsh chemicals that can cause serious side effects or have insufficient activity level to be effective.

### **Introducing Nivitol™ – Natural, Effective & Safe**

Nivitol™ is a natural botanical compound discovered from a plant extract scientifically proven to visibly improve skin appearance. Nivitol™ contains a novel tyrosinase enzyme inhibitor that reduces melanin formation and safely lightens skin color.

### **Key Benefits**

- Clinically shown to be up to 20x stronger than leading whitening agents
- Extensive safety testing with no adverse effects
- Extremely effective at low concentrations as compared to competitive products
- High compatibility in formulating with other ingredients
- Multiple patents pending

### **Product Profile**

**Plant Origin:** *Dianella encifolia*

**INCI Name:** Dimethoxytolyl Propylresorcinol

**Application:** Topical for cosmetic skin whitening, lightening or brightening

**Formulation:** Active agent in creams, lotions, gels, masks and other skin products

### **Physical**

**Properties:** Solubility: dissolves in alcohol and other common solvents  
Color: Off-white to light tan powder
