Teleworker

Ideal for use on any SIP-based PBX platform

KONNECT ™
Business Phones

KONNECT ™ Business Phones offer tight PBX integration for more successful deployments.

True Visual Voicemail

Users can browse through messages and fast-forward or rewind a message for easy and intuitive operation.

Key System features behave the same simple way users are already familiar with.

Great support for BLF & SLA

Private FXO feature for the teleworker

Keep separate voicemail greetings for the users home line and office extension on a single KONNECT ™ phone.

SIPSTIM ™ protocol delivers a simple and intuitive experience for the user and supports custom application development.

Integrate custom applications using SIPSTIM ™ protocol
