EnergyCAP®

Best Choice
for energy efficiency software

1. Best Experience.

Best-selling energy software since 1980 with more users, buildings, meters and utility bills tracked than any other software in the industry.

2. Best Value.

More money and energy-saving features than any other system. Often pays for itself in the first year, delivering excellent Return on Investment.

3. Best Deployment Flexibility.

Options that fit every situation: LAN client/server, online web-based, desktop, Software as a Service. Pick what's best for you!

4. Best Product Leadership.

More frequent upgrades and innovative features than any in the industry. Ten upgrades in the past six years alone!

5. Best Help Resources.

Hundreds of pages of online help resources including: articles, how-to instructions, technical bulletin downloads, and videos. Online help ticket system for efficient same-day support from our in-house technical staff.

6. Best Corporate Focus.

100% focused on developing the best EnergyCAP products and services. We're not distracted by other business pursuits such as procurement, consulting, equipment manufacturing, or bill payment outsourcing.

7. Best Training Options.

More training resources than any company in the industry. Options include: free online training series, onsite, training conferences, user group conference calls, and videos.

8. Best Community-Wide Vision.

Our company commitment to a sustainable future reaches far beyond our own customers. With EnergyCAP's GreenQuest™ application, extend energy efficiency to your employees, clients, and residents—equip the entire community!

9. Best Interfaces.

Submit to ENERGY STAR and receive an energy rating, import electronic weather data, export data to your Accounts Payable or General Ledger system or to Excel and import EDI billing data and meter readings.

10. Best Stewardship.

Our mission is to help you be a good steward of your valuable resources. As good stewards, we donate to domestic and international charities through our nonprofit Global Capacity and provide a company chaplain program.
