

Don't face
breast cancer and
reconstruction

Alone...

AMERICAN SOCIETY OF
PLASTIC SURGEONS

Seek the team approach to breast cancer and reconstruction.

If you are diagnosed with breast cancer, make sure your treatment includes a full team of physicians to provide *optimum care*.

This team may include:

- Primary Care Physician/OB/GYN
- General Surgeon/Breast Surgeon
- Plastic Surgeon
- Oncologist
- Radiologist/Radiation Therapist
- Nurse

If all of these specialists aren't involved in your care, ask your doctor why.
