

**ACTIVE DATA EXCHANGE JOINS DOTNETNUKE CORP. PARTNER COMMUNITY**  
*Active Data Calendar expands its integration with a content management system in the .NET framework*

**(Bethlehem, PA – May 26<sup>th</sup>, 2010)** – Active Data Exchange, a leading provider of enterprise event calendar software, announced its recent partnership with DotNetNuke Corp.

“Our commitment to the .NET platform made a partnership with DotNetNuke Corp. a no-brainer,” stated Susan Yee, CEO of Active Data Exchange. “We service over 300 clients of all different sizes, and wanted to offer a robust web content management system built in .NET to complement our Active Data Calendar web calendar solution.”

“We welcome Active Data Exchange into the DotNetNuke Corp. Partner Program as we continue to rapidly expand our base of partners, customers and integrators of the DotNetNuke platform. Active Data Exchange provides the experience we look for in a qualified DotNetNuke Corp. partner,” said Terry Erisman, VP of Marketing Ops for DotNetNuke Corp.

***About DotNetNuke Corp.***

*DotNetNuke Corp. is the steward of the DotNetNuke open source project, the most widely adopted Web Content Management Platform for building web sites and web applications on Microsoft .NET. Organizations use DotNetNuke to quickly develop and deploy interactive and dynamic web sites, intranets, extranets and web applications. The DotNetNuke platform is available in a free Community and subscription-based Professional, Elite and Elite Premier Editions. DotNetNuke Corp. also operates Snowcovered.com where users purchase third party software add-ons. Founded in 2006 and funded by Sierra Ventures, August Capital and UV Partners, DotNetNuke Corp. is headquartered in San Mateo, Calif. For additional information, visit [www.dotnetnuke.com](http://www.dotnetnuke.com).*

***About Active Data Exchange***

*Active Data Exchange provides web software and web services to over 300 organizations across North America with the primary focus on enterprise event calendaring with its Active Data Calendar solution. Used by communities, government agencies, colleges, K-12 school districts, finance and information technology departments, corporations and media companies, Active Data Calendar provides the ability to aggregate and distribute event, key dates and deadline information across multiple websites, departments and organizations.*
