

Datashare Solutions ensures IT continuity for Mundays LLP

If you've ever consider complete IT outsource including managed helpdesk, live support, project assistance for implementing new solutions, or [IT disaster recovery planning](#), then law firms should take note of Datashare Solutions. From May 2010, Surrey-based corporate lawyers Mundays will join the numerous law firms relying upon Datashare's legal sector expertise and provision of complete managed IT services. Managing Director, John Eady explains how Mundays will benefit from forming a partnership with Datashare and why amongst other things [IT business continuity planning](#) is essential for law firms:

"For the past five months we have been providing Mundays with quality managed IT services under a nursery agreement and we are delighted to have proven our value over this time by being formally accepted as their complete IT outsourcing partner," he says.

"We have an unrivalled understanding of the IT requirements of legal firms, and can demonstrate that with an appropriate IT business continuity plan, law firms can work more effectively and more profitably.

"Mundays will benefit from complete IT management for all systems; including rapid data backup and restore, IT disaster recovery, helpdesk, IT business continuity planning... the whole package. With our full ISO27001:2005 data management solutions, law firms can be sure of total data security, more effective collaboration, more efficient deployment of employees and ultimately, better profits," he concludes.

If you too are in the legal field, it surely begs the question, "How effective is *your* [IT disaster recovery plan](#)?" For IT service improvements that deliver tangible cost savings in the long term, law firms in increasing numbers are turning to Datashare Solutions - further strengthening its position in this sector.
