

# Silicone Electrical Tape

## Self-Fusing Silicone Electrical Tape

### Why new Hoffman Products electrical tape?

- ▶ Resists oil, water, ozone and many chemicals
- ▶ Can be used for all electrical connections
- ▶ Tape adheres to itself and fully bonds in 24 hours at room temperature
- ▶ Can easily be used on irregular shapes or uneven surfaces
- ▶ Made in the U.S.A.

### Applications

- ▶ Motor lead insulation
- ▶ Repair damaged wires and seal electrical terminations
- ▶ Wire bundling – cable management
- ▶ Re-grip tool handles
- ▶ Repair leaky pipes and damaged hoses
- ▶ Bus bar insulation
- ▶ Protect terminations from oil, dust, water contamination
- ▶ Temporary hose repair
- ▶ Emergency marine repair of electrical wires and broken lines
- ▶ Jumper cable grip insulation
- ▶ Emergency radiator hose repairs
- ▶ All purpose repair tape
