

# AK BIOTECH OMEGA-3

- Highest concentration (up to 95%)
- Customization for your needs
- 100% Dependability

## AK Biotech

AK Biotech has a vision of producing the highest quality and concentration of Omega-3 available on the market (EPA more than 95% and DHA more than 80%). All AK Biotech ingredients come from only ecological clean environment and guarantee the purest form of the products. AK Biotech is proud to provide a proven value to its clients and deliver superior Omega-3 product in custom concentrations and ratios of powder, oil and Triglyceride form.

## Quality Assurance

Our quality system is based on GMP (Good Manufacturing Practice) guidelines and EU-HACCP (Hazard Analysis Critical Control Point) guidelines.

We investigate raw material suppliers by rigorous standards.

Our product is released by qualified personnel.

## Quality Control

The fish oil and other raw materials are purchased from pre-approved vendors

All equipments and methods used in the laboratory are qualified and validated to ensure that they give expected results.

We issue certificates of analysis for all our products, once quality and compliance are confirmed.
