SilverEdge Selected to Share Deltek Vision Knowledge and Expertise at TECH+ 2010: The AICPA Information Technology Conference

Schaumburg, IL – June 11, 2010 – SilverEdge Systems Software’s President, Maria Vedral, was selected to present at the AICPA’s premier technology event for CPAs, TECH+ 2010: The AICPA Information Technology Conference. This is the third consecutive year Ms. Vedral has been invited to speak at the conference, which was held June 7-9 in Las Vegas.

Addressing CPAs and leaders in the accounting profession, Ms. Vedral gave an overview of how Deltek Vision is suited specifically for project-focused businesses in a session titled: “Accounting Software and Consulting Showcase.” Deltek Vision helps firms improve business performance, streamline operations and execution, and win more business.

“Deltek extends their commitment to clients beyond simply adding new features to their product,” said Ms. Vedral. “Most recently, Deltek partnered with Service Performance Insight, a research and consulting organization that provides actionable insight to professional services firms, to deliver the 2010 Professional Services Industry Benchmark Report.” The report allows firms to evaluate themselves relative to industry peers. Firms can identify their competitive strengths and opportunities for improvement that can be remedied with innovative tools and processes. A copy of this report was offered to session attendees in addition to a complimentary Business Performance Assessment.

The AICPA TECH+ Conference is held annually and focuses on maximizing the value of technology by helping attendees enhance their understanding of the latest information on new products, solutions, practice management and leadership.
