ROCKLEDGE, FL: TrakSoft LLC, a 19-year professional software development firm, announced the launch of DomainProShop.com, a great source of cool, unique, and premium domain names.

“You will be able to find a great domain at Domain Pro Shop,” said Gary Harris, Director and Chief Developer. “We are very selective as to the domains we obtain and offer on the site. We will be adding new domain names on a regular basis.”

Domain Pro Shop offers a variety of unique domain names. Some domains come with fully developed sites as well as exclusive ownership to the product lines being marketed on the sites. The domain names offered can be used for a variety of purposes. They can be used for personal, business, hobby, informational, or educational web sites.

Available domain names are divided into ten categories. These categories include Music, Sports, Vehicles, Professional, Pets, Education, Military, Miscellaneous, Short Names, and Premium Names. Premium names include domain names that have a high-appraised value, have been established for several years, or include a developed Web Site.

Examples of domain names include ClassicRockRules.com, Football-Fanatic.net, HeavyChevy.org, ProfessionalManager.net, Cat-Crazy.net, College-Grad.net, Army-Vet.org, Free-Spirits.org, iWasp.net, CTTY.net, and several others.

Most domain names are around \$25. Premium domain names are priced well below the appraised value. When available, the top-level domains for the same name are grouped for one sale. Once purchased, Domain Pro Shop will assist in transferring the domain names to purchasers.

TrakSoft LLC, in Rockledge, Florida, specializes in professional software development for both the government and private sectors. For more information, please visit [www.DomainProShop.com](http://www.DomainProShop.com).
