

Learn SEO Starter Package

Month 1—Site Audit

Keyword research and analysis, development of a site optimization plan with the specific keywords for your top-level pages, meeting to discuss plan and how your site can compete more effectively. Detailed guide to on-page optimization.

- **Month 2—6 hours of service and weekly reporting**
We optimize your most important pages, implement tracking via our SEO dashboard and SEO reporting software (if your business is driven by local search, then our first priority will be your rankings in Google Maps' Local results).
- **Month 3—6 hours of service and weekly reporting**
Together, we optimize your next most important pages, create your first SEO progress report, discuss next steps.
- **Month 4—6 hours of service and weekly reporting**
Deeper optimization around products or services, recommendations for how to continue to make progress, next steps based on results to date.
