

Labeling Simplicity at Its Best... and only **\$4995**

Compact, Low-Cost,
Easy-to-Use, Patent-Pending
Labeler Driven by a
Brushless DC Servo Motor!

1 Missouri Research Park Drive
St. Charles, MO 63304-5685

Introducing **LELA**

Leading Edge Label Applicator

Welcome to labeling simplicity at its best.

We've built **LELA** around a brushless DC Servo motor, making it the Smartest Labeler in its class. Quite simply stated, **Servo motors are more accurate and dependable in applications requiring maximum uptime and high repeatability.** With a patent-pending rewind-drive system, there are no drive or nip rollers to wear out or web around.

Standard Features:

- Wipe-On Label Applicator
- Drive Roller-Free Patent-Pending Feed System
- Accurate and Reliable Brushless Servo Motor
- On-the-Fly Setting Changes
- Durable Stainless Steel Peel Blade
- Easy-to-Read LED Text Display
- Built-In Diagnostics

Offered at **only \$4995**, this is an incredible buy.

For more information or a FREE no-obligation demonstration of LELA, please contact us today and ask for your local

Diagraph sales representative.

LELA can be oriented for top, side or bottom labeling
