Deltek Honors SilverEdge with Project Excellence Award

Schaumburg, IL – June 29, 2010 – SilverEdge Systems Software, a Deltek Premier Partner, was awarded the elite Project Excellence Award from Deltek. The award was presented at Deltek's Insight user conference held at the Gaylord National near Washington D.C.

The award recognizes the outstanding results SilverEdge helped American Structurepoint, Inc., an industry leader in the field of architectural, engineering, surveying, field and environmental sciences achieve through superior implementation and project management. American Structurepoint selected Deltek Vision and achieved some remarkable, firm-changing results, including: reducing the time it took to create invoices from 30-40 days to 20; increasing visibility into firm-wide expenses leading to a $250,000 reduction in costs; achieving $1-$2 million in savings due to fewer projects over budget; and increasing revenue by a projected $1.4 million due to better resource utilization.

"We are committed to helping our clients obtain substantial value in the solutions we implement," said Maria Vedral, SilverEdge's President. "We are most proud of the results American Structurepoint achieved with Deltek Vision and the service we provided. SilverEdge is honored to have this recognition from Deltek."

"Our IT group prides itself on going the extra mile and turning technology challenges into a competitive advantage, within our organization and with our IT clients," said Anthony Valasek, American Structurepoint's Executive IT Director. "We wanted a partner that held the same core values and as a result we chose SilverEdge."

In the three-year history of the award, SilverEdge has received the award twice and was a finalist once.
