DYMO/Mimio Interactive Teaching Technologies Launches New MimioClassroom Product Suite

DYMO/Mimio Interactive Teaching Technologies (ITT) has launched MimioClassroom™, an integrated and easy-to-use suite of interactive teaching tools and services tailored specifically to educators. After much observation, interviews and listening to teachers about what they need, the company created MimioClassroom. The collection of teacher-friendly interactive whiteboard devices, student assessment systems, document cameras, accessories and software seamlessly work together or on their own, to enable teachers to do what they do best: **simply teach.**

New products and new name debut at ISTE (International Society for Technology in Education) in Denver.

Lauren Rodan, Dawn Campagna Aguilar and Brienne Marks like this.

Paula Richardson Scott I have a mimio to use in my classroom, but can't get my reading workbook pages (on a disk and pdf files) to load so that I can work with them. How do you load pdf files to mimio so that the entire sheet shows on the board and you can work with it?

mimio Make sure you are going to File -> Import. This will allow you to import PDF, DOC, and PPT files directly into Mimio Notebook.
