## Customers Love WebJaguar

*"Our limitations were great on our previous web platform. Our hands were tied in marketing directly to our customers through our website. We switched over to AdvancedEMedia's WebJaguar platform, which gave us full reign in being able to run promotions on the fly, manage web content, manage site traffic, and have more control over the customer's online shopping experience. Within the first 6 weeks of moving to the new web platform, we increased our online sales by 40%.*
