3rd Annual Chair Summit

The Master Class for Neuroscience Professional Development

DIVERSE AND ACTIVE LEARNING FORMATS

Plenary Sessions

Interactive presentations featuring faculty chairs discussing recent advances in evidence-based research and clinical practice.

Chart Review Sessions

Introduced in 2009, the interactive chart review sessions received rave reviews from participants and Chairs alike. The Chart Reviews provide an opportunity to interact with faculty in small groups to discuss barriers to care, application of the case to their own clinical practice, and the development of key clinical takeaway points for each complex case. A lunch-time session will feature a presentation by each Chart Review Leader to share the best practices to the entire group so that all attendees can learn from the best practices developed.

“Ask the Chair” Breakout Sessions

Featuring faculty chairs discussing real-world topics such as cultural differences, access to care barriers, ethics, and development of treatment teams.

Community of Practice

Featuring a discussion of how clinicians can interact to create communities to assist in improving overall patient care through shared knowledge and experiences.

ARS Surveys

Identifying additional areas of educational need for future CME activities as part of a plan for continuous professional development.

CME Outfitters, LLC, reserves the right to update the list of faculty or make necessary changes in names, titles, affiliations, and other details without notice. Visit www.neuroscienceCME.com/CMW461 for the most updated information.

USF Health adheres to the ACCME Standards regarding commercial support of continuing medical education. It is the policy of USF Health that the faculty and planning committee disclose real or apparent conflicts of interest relating to the topics of this educational activity, that relevant conflict(s) of interest are resolved, and also that speakers will disclose any unlabeled/unapproved use of drug(s) or device(s) during their presentation. Detailed disclosure will be made in the course syllabus.

Discussion of Off-Label Use: Because this course is meant to educate physicians with what is currently in use and what may be available in the future, there may be “off-label” use discussed in the presentations. Speakers have been requested to inform the audience when off-label use is being discussed.

Accommodations for Disabilities: Please notify Jamie Conte via email at jconte@cmeoutfitters.com or call 877.263.7767 a minimum of 10 working days in advance of the event if a reasonable accommodation for a disability is needed.

The events, activities, and facilities of this conference are available without regard to race, color, sex, national origin, disability, age or Vietnam veteran status as provided by law in accordance with USF Health’s and CME Outfitters’ respect for personal dignity.
