

The Franchise

SOCIAL MEDIA
SPECIALISTS

Over 10 years ago, CANAM Franchise Development Group began building franchise systems from the ground up and assisting existing and new franchisors to expand and grow in the Canadian marketplace.

Seeing the need for a web portal devoted to marketing franchise opportunities, in 2002 CANAM developed BeTheBoss.ca, PlaneteFranchise.ca and, more recently, BuyThatFranchise.ca, making CANAM Canada's leader in franchise marketing and promotion.

What's the point of all this? We know franchising. From building, developing, and marketing franchises, CANAM Franchise Development Group has become Your Canadian franchise authority™.

In launching this new Social Media program, we are offering franchisors the competitive edge in their now-essential Social Marketing endeavours. To be effective in building a profitable social network full of online followers and fans, you need two things from the team driving your Social Media campaign: expert and up-to-the-minute knowledge of Social Media and an intimate understanding of franchising and franchise marketing. CANAM is the only company to offer Social Media programs exclusively to Franchisors that can promise that unique success-factor and, because of our large network of clients, we are able to offer these services much more cost-effectively than traditional ad agencies.

Leverage the experience and success of CANAM, the undisputed Canadian franchise authority.

What we do...

- Create and promote content on various social media channels
- Find your audience
- Develop strategies for your organization
- Monitor what's being shared about you
- Build a following by networking and sharing interesting content
- Measure results for various channels
- Continuously research new channels so clients get in on early adoption
- Customize channels with social media application programming interfaces
- Implement social media policies and procedures

How we do it...

- We identify social media opportunities and analyze what will work for your target audience
- Create and maintain accounts on a regular basis
- Programs to reduce time consumption

- Receive effective tools for generating awareness for your brand
- Cut service costs while reaching a larger number of people
- Social media drives a large amount of traffic back to your website
- Franchisees see increasing numbers of brand loyalty
- Customers get updates in real-time

What is SEO?

Search engine optimization (SEO) involves building new websites, or altering existing websites, so that they rank highly in a search engine's organic listings when users search on terms that are related to the site's content.

When you implement a Search Engine Optimization (SEO) Strategy, your site will achieve improved positioning on major search engines for specific keywords relevant to your products, services, and/or topic of your website.

What is a CMS?

A content management system (CMS/Wordpress) allows the content manager, who may not know HTML, to manage the creation, modification, and removal of content from a Web site without needing the expertise of a Webmaster.
