# USING INFORMATION FROM YOUR EQUIPMENT TO IMPROVE PROFITABILITY

Capturing data from your engine-driven equipment can be difficult and time consuming. Turning that data into useful information that reduces your costs or increases your revenue can be a herculean task.

The InReach<sup>™</sup> solution puts this valuable data within your reach and delivers it in a way that improves your profitability.

# EQUIPMENT INFORMATION IMPROVES YOUR PROFITABILITY THROUGH:

- Stronger Equipment Differentiation and Customer Loyalty.
- Increased Parts and Service Sales.
- Reduced Product Supp ort Costs.
- Reduced Warranty Costs.

# **HOW WE DO IT**

InReach is an end-to-end telematics solution that includes the on-asset hardware, international communications connections, web-based services, and strong 24/7/365 customer support.

#### **A PROVEN SYSTEM**

The InReach solution has evolved from over a decade of telematics industry experience and is fully integrated, so you don't have to worry about anything except running your business.

#### AFFORDABLE

The InReach M5G Solution is an affordable way to get run hours, alerts, and GPS/Geofence management of your asset.

#### RELIABLE

The InReach solution uses a robust infrastructure for data security and an on-line web center for your tools and automated services. Reports can be delivered to your email box or accessed on-line any time. Our Operations Center is professionally staffed 24/7/365 with Coordinators that understand equipment applications, giving you the peace of mind that you need.

#### **OPEN AND FLEXIBLE**

The InReach solution is built on open systems that enable integration and data transfer with your existing application. We'll work with you to create a final solution that improves your business processes.

# DATA -> INFORMATION -> PROFIT

The key to turning mountains of equipment data into useful information is flexible services, carefully designed after decades of industry experience. InReach standard services get you started today and we can also create custom services that are tailored to your business.

### **ALERT MANAGEMENT**

- On-line display of alert history
- Great troubleshooting tool

## **RUN TIME REPORT**

- Compliance to emissions or other test standards
- Rental billing rate confirmation, which enables higher profits

### **MAINTENANCE DUE REPORT**

- Proactive maintenance coordination that reduces costs
- Increased customer loyalty

# **ALERT NOTIFICATIONS**

Email notifications for alarms, faults, and events help you avoid damage, respond quickly on support contracts, and build customer loyalty

#### MAPPING AND GEOFENCES

Know where your asset is, when it moves, and its health...all from the same map view!

#### MAINTENANCE PLANNER

Schedule maintenance, easily record the notes upon completion, link to your own procedures, and send follow up emails with key asset information automatically included.
