First Touch Payment Solutions... the **FIRST** Solution for your processing needs.

A Consulting Approach

Whether you're a new business or a business that's ready to add a better credit card service — we've got a First Touch Payment Solution to fit your needs. We can provide you Remote Deposit Capture and Merchant Services.

First Touch Payment Solutions uses a consultative approach to design a custom merchant service program suited to your business requirements. Our team of experts take great pride in analyzing your merchant services needs.

With our free consulting, we'll not only save you money, but will help you bring in more business. As your business grows, we are here to coordinate new services and programs to take you to the next level of your business.

With First Touch, it's easy to get set up to accept credit cards. We make it even easier for you to switch from your present provider to us. Our wide array of services are easy to install, easier to use, and easiest on your pocketbook.

First Touch Payment Solutions also provides a state of the art Remote Deposit Capture solution for your convenience.

In this complex business world, it's important to be able to take orders and process payments through a variety of means. If your business is a B to B, association, non profit, retailer, or even a kiosk, we can assist you.

- Brick and Mortar Sales
- MOTO Sales (Mail Order and Telephone Order)
- E-Commerce Sales

We pride ourselves on our customer service. Customer service representatives and our help desk are available to assist you in billing, equipment, or technical support.

A Solution to Fit Every Business

Merchants

All businesses are distinct; some sell only B-to-B, other retailers maintain only a presence online and some businesses sell across the boards... e-commerce, telephone, and in-face. The possibilities are endless and so are the choices for Merchant Services.

At First Touch Payment Solutions, we'll take the time to analyze your business type and your processing needs. We'll make recommendations to save you money and time. We don't want to just sell you another credit card service, we want to provide a processing solution to help your business grow. We believe that our business is to help you grow and exceed expectations.

Associations

First Touch Payment Solutions has a program for a multitude of Trade Associations. The ability to process credit cards is essential to all businesses. When FT-PS becomes the association's merchant service provider, the association can refer members to our solutions. In doing so, your members will benefit from our quality program while your association will benefit from additional revenue.

Non Profits

The benefits of a non profit having their own merchant account are numerous, but the central reason is to receive donations in a timely and hassle free manner. It's important that your non profit will be the party named on the donor's credit card statements, and that those funds will flow directly to your non profit's account. It's a fine branding opportunity to have your non profit's name on your donor's statement and it assists your donor at tax time.

First Touch Payment Solutions has the know-how to integrate your non profit organization's web site with our internet and e-commerce solution for a fully integrated donor system.

Merchant Services Highlights

All Major Credit Cards and Debit Card Processing
Provide your customers all brands of debit and credit card for paying transactions.

ATM Machines
Equip your business with an ATM machine for customer convenience and increased sales.

Cash Advance Service
For those just-in-case times, when cash is a little tight, a Cash Advance system based upon the volume of your merchant business transactions can be secured.

Check Guarantee Services
Safeguard your business cash flow with a guarantee that every check approved by our system is a good check. If the contrary proves to be the case, the service reimburses the account.

NSF Check Re-presentment Service
You can finally get those NSF checks paid plus the NSF fee returned.

Electronic Check Conversion
Process checks fast by converting a paper check into an electronic funds transfer transaction. You can easily scan a check through a reader to electronically send the account information on for processing.

Electronics Benefits Transfer (EBT)
Accept your customers' EBTs (plastic debit card format for all government benefits payment cards) processed through your credit card terminal like a credit card.

PCI Compliance Service
Use a simple PCI compliance program that will keep you compliant within credit card regulation guidelines.

Plus many more Merchant Services are available.
