# SUN-CHLORELLA CREAM®

Advanced nourishing skin  
cream naturally rich in  
Chlorella Growth Factor.

## NATURAL BEAUTY, THE JAPANESE WAY.

For over 60 years, Sun Chlorella,  
Nature's Perfect Superfood, has  
proven to be one of the most popular  
nutritional supplements in Japan and  
is classified by its government as a  
functional food.

## RESTORE AND RENEW.

The nucleic acids in Sun Chlorella  
Cream® play an important role in  
maintaining healthy skin with their  
ability to minimize cell damage and  
promote cell rejuvenation.

## NUTRITIONALLY THE BEST.

The amount of nutrition in Chlorella  
Growth Factor (CGF), higher than any  
other superfood, provides cellular  
benefits and a wealth of nourishment  
for your skin.

## PURIFY AND PROTECT.

Sun Chlorella Cream® goes beyond  
other skincare products – it's brimming  
with nature's purifier, chlorophyll, and  
free-radical fighting antioxidants.

## NATURALLY FORMULATED.

Sun Chlorella Cream® is paraben and  
propylene glycol free, made with only  
natural preservatives.

## A healthy diet for your skin.

It is our largest, most exposed organ – yet often we pay no more than topical attention to our skin. To achieve all-around fit skin, we must address our internal and surface needs together. Sun Chlorella USA introduces the first product that cares for your skin's outer integrity while delivering the nourishment vital to its health, rejuvenation and inner renewal – Sun Chlorella Cream®.

After consistent use of Sun Chlorella Cream®, skin appears firmer and lines are smoothed away.

Results based on a recent consumer trial.

## Advanced skin care with Chlorella Growth Factor.

Sun Chlorella Cream®, with its blend of natural ingredients and purified water base, diffuses into your skin's surface to hydrate the cells, keeping your face fresh and moisturized longer. Once absorbed, the nucleic acids in the Chlorella Growth Factor (CGF) begin stimulating skin cell activity. Cultivated from nature's perfect superfood, Chlorella, the CGF in every ounce of Sun Chlorella Cream® feeds your skin the nutrients it needs to restore; leaving you with healthy skin and an effervescent glow.

*"Sun Chlorella Cream with CGF is by far the best nourishment for your skin, and I highly recommend it."*

Andrew Racette, D.O.  
Certified Osteopathic Dermatologist
