GMinutes App Now Available on the Google Apps Marketplace

Santa Clara, Calif. July 20, 2010 -- Moobila™ today announced it has added GMinutes™ App to the Google Apps Marketplace™, Google's online storefront for Google Apps™ products and services. GMinutes, the one-stop-shop paperless meeting minutes management solution offers users the ability to access, write and read meeting minutes, track action items and provide real-time status updates securely from any desktop and/or mobile device.

"Moobila works hard to provide its customers best-in-class cloud computing solutions, so integrating with Google Apps was a logical choice for us," says Jauher Zaidi, Chairman and CEO of Moobila. "By adding GMinutes to the Google Apps Marketplace, we've made it extremely easy for Google Apps customers to organize and manage their meetings. The GMinutes paperless meeting minutes approach will revolutionize the way corporations and organizations document meeting minutes and track action items," Zaidi added.

GMinutes is a cloud computing productivity application that provides many tools to organize and manage meetings, which includes a:

- Scheduling tool - allow users to schedule meetings, send meeting dates and agendas.
- Online writing tool - allow users to write meeting minutes.
- Action item tool - allow users to assign action items.
- Tracking tool - users can track meeting dates, action items, meeting minutes, and notes.
- Search tool - offers the flexibility to search meeting minutes and action items by date or word search in seconds.

All meetings minutes and action items are available 24/7 anywhere anytime, whether on your laptop, desktop, phone or other mobile device.

This past June, GMinutes won 1st Place Terman Award 2010 for best Cloud Computing application by the TechAmerica Foundation.

The Google Apps Marketplace makes it easy for more than 2 million Google Apps businesses to discover, purchase and deploy integrated business applications and related professional services. By integrating with user account and application data stored in Google Apps, these cloud applications provide a simpler user experience, increase business efficiency, and reduce administrative overhead. To learn more, visit google.com/appsmarketplace.

"We are very happy to have GMinutes in the Google Apps Marketplace," adds Scott McMullan, Google Apps Partner Lead for Google Enterprise. "Through the Google Apps Marketplace, software vendors like Moobila are helping us build a rich ecosystem of integrated apps that work seamlessly with Google Apps, allowing IT administrators to leverage the benefits of cloud computing and extend Google Apps to meet more of their

business needs. We are excited to make meeting management easier for the millions of Google Apps users who have embraced the cloud."

Google Apps brings simple, powerful communication and collaboration tools to organizations. With Google Apps, users can use applications such as Gmail™ webmail service, Google Talk™ instant messaging service, Google Calendar™ calendaring service, Google Docs™ program, Google Sites™ web application, and Google Video™ for business on their own domain to work together more effectively. Best of all, it's all hosted by Google, so there's no hardware or software to download, install or maintain.
