Corepoint Health Connect. Integrate. Optimize.

Market Focus & Leadership.

#1 RANKED INTERFACE ENGINE

Corepoint Health is a demonstrated leader in supporting hospitals, radiology groups, laboratories, and clinics with high performance, innovative, and results-driven solutions. In the *2009 Top 20 Best in KLAS® Awards: Software & Professional Services* report, Corepoint Health was recognized as the #1 interface engine. This recognition is based on customer ratings and feedback.

Tremendous changes are occurring in healthcare, and it is imperative for organizations to deliver productively and effectively on the challenges ahead. IT infrastructure plays a fundamental role in supporting the care delivery processes while connecting applications and a community of providers for a single purpose – providing higher quality patient care.

Corepoint Health is solely focused on the healthcare IT market, developing practical software solutions to integrate disparate application data flows, connect various providers together, and optimize essential workflows to support our customer's patient care goals.

"The Corepoint Health team is rock solid."
Michael Mover, CIO

Proven Software Solutions.

Every day, hundreds of healthcare providers rely on Corepoint Health solutions to integrate their application environment, connect electronically with various providers, and optimize their workflows through timely insights. Through our vendor partners, an additional 600 plus healthcare organizations rely on Corepoint Health technology to enable specific application integrations and data flows.

COREPOINT INTEGRATION ENGINE

Corepoint Health has earned the trust of hundreds of healthcare organizations and is quickly become the first name in connecting, integrating, and optimizing healthcare operations and patient flow.

"The innovative approach and capabilities of Corepoint Integration Engine transformed how we manage our healthcare integration initiatives. We now have complete confidence to meet the demands ahead with greater efficiency, productivity, and enhanced service."
Kim Kiefer, Supervisor, Application Development Supervisor

Extensive Experiences.

The team at Corepoint Health has the distinctive track record when it comes to working with the varying healthcare standards and different IT infrastructure solutions. From participating actively for over a decade in the HL7 Working Group committees, to participating in IHE initiatives, to collectively implementing thousands of interfaces, the Corepoint Health team has the practical experiences and realistic insights on what it takes to implement integrated healthcare and understand critical workflows.

With our exclusive focus on the healthcare market, we continuously analyze key trends, customer requirements, and regulation changes to advance our product and service offerings. What does this mean for our customers? It means we have the background to support them beyond features and functionality and, during implementation projects, we offer added value in delivering a successful solution.

"Beyond the technology are the people. Corepoint Health's support team is very knowledgeable regarding our processes and extremely accommodating to our needs. It has been a great match of people and technology applied to our processes."
Todd Thomas, CIO

Operating Principles.

Simply stated, we will do what is right for the customer. At Corepoint Health, we are committed to maintaining the highest level of integrity in all interactions. We believe in developing strong relationships with our customers, built on mutual respect and collaboration. We also understand that great products and solutions are brought about through listening to our customers to gain a deep understanding of their needs, and then developing a thoughtful plan to deliver in a results-oriented way.

These principles have proven successful in building a "rock solid" foundation for consistent, healthy growth throughout our company history. Innovative, practical, intuitive, high quality, integrity, elevated performance, and customer-centered are more than words to us; it is the Corepoint Health difference.

"We are able to deliver high quality patient care with Corepoint Health orchestrating the clinical data flow between our healthcare applications."
Al Respess, Sr. Director, Information Technology
