

*Sensible Technology Management*

## Company Overview

Invizio, LLC is an information technology (IT) services company specializing in the design, support and management of IT infrastructure for small businesses in Miami and throughout South Florida. Our primary goal is to be the single point of contact for all technology related matters in your small business. No matter the size or scope of your needs, we are here to serve you as your trusted technology advisor.

### Our Services

#### On Demand Computer Support

We provide incident based technical support services for the times when things do not go as planned, or you need help with everyday technology challenges.

#### Managed IT Support

Tailored to companies that depend on maintaining a reliable technology environment, we offer ongoing IT support that gives you a single point of contact for all technology needs. For one flat rate, the service includes unlimited access to technical support, proactive maintenance of IT systems and 24x7 monitoring.

#### Small Business IT Solutions

In addition to our support services, we design and implement a wide array of technology infrastructure solutions that improve the efficiency and competitive capabilities of your organization.

### Our Philosophy

#### Superior Service Delivery

We strive to provide outstanding service by delivering on what we promise and always putting the needs of your business first.

#### Friendly Knowledgeable People

Our staff are continuously retrained and kept abreast of the latest IT industry developments and trends to better serve your business.

#### Commitment to Client Success

Our success as a company is built on a simple equation; when you succeed, we succeed. We approach every interaction with you with this fact in mind.
