Students love our healthy vending products

Innovative Technology:

Video-Displaying LCD screen

Nutritional Education:

Machines provide product info & nutritional advice

Flexible Payment

Options: Cash, Credit, and Debit Cards

Eco-Friendly Machines:

Save your school up to 50% on energy costs

Problem #1:

Traditional vending programs are detrimental to students' health.

#1

Solution:

H.U.M.A.N. Healthy Vending offers only health-promoting, tasty products.

Problem #2:

Other “healthy vending” programs hurt school profits.

#2

Solution:

The h.u.m.a.n. program was designed specifically for profitable school vending.

Problem #3:

Standard vending machines don't “cut-it” when it comes to healthy vending.

#3

Solution:

The h.u.m.a.n. machine fleet was created solely for healthy vending success.

Reversing a 30 year vending industry trend, products dispensed by h.u.m.a.n. healthy vending machines promote student happiness, elevated performance & improved health. Students typically consume 33 to 50% of their daily calories at school – it's safe to say schools' food offerings impact every student significantly. h.u.m.a.n. offers over 1000 of the healthiest, student taste-tested & sales-proven vending products in the market. And since we get schools the lowest wholesale prices on products, prices to students are as low as possible. We'll also design a unique product mix to meet your school's specific dietary requirements.

Improving your students' health & maximizing profits for your school do not have to be mutually exclusive objectives. They can exist together, & with h.u.m.a.n., they do. The H.U.M.A.N. Healthy Vending for Schools program was created solely to provide your school with a successful fundraising opportunity while also influencing your students to develop healthier dietary habits. By achieving this goal, we can improve student wellbeing & hinder the growing obesity & diabetes epidemic among young people in America. All the while significantly increasing profits!

From the moment you lay your eyes on a h.u.m.a.n. machine, you know it's not your average vendor. Unattractive, inanimate, old-school vending machines fail when it comes to vending premium, healthy foods & drinks in a school setting. In order to offer an optimal healthy vending program that experiences maximal student acceptance, we've developed a line of customized machines that make vending more enjoyable, educational & interactive. Digital LCD, cashless payment devices, attractive graphics, & other advanced features make this possible.

The Most Delicious & Healthiest Products: Taste-Tested, Sales-Proven & Nutritionally Approved Foods & Drinks

Students are picky! Taste AND nutrition matter when it comes to creating a successful vending program at your school.

Experience. After 8+ years of taste-test research, we know what healthy products sell in school vending machines & which don't. Our program is successful because students love the products we offer.

Selection. With over 1000 foods & drinks in our catalog, we offer a larger healthy vending product selection than anyone. Students love the products we offer.

Expertise. With a biomedical engineer as our founder & a health advisory board of certified nutritionists, medical doctors, & registered dietitians, we know health.

Customization. Different products work better for different schools. SB-19, allergen-free, 100% organic, all-natural... whatever you need, we'll customize a unique product mix of snacks & drinks to meet your students' dietary needs.

Pricing. You receive the best prices thanks to our relationships with the nation's largest natural, organic & sports nutrition distributors. We cut-out the middlemen to save you & your students money.

Guidance. Our digital LCD screen provides product & nutritional info to guide students in making smart purchasing decisions

h.u.m.a.n. will work hand-in-hand with your administration, health board & food service team to create the perfect product mix for your school!

How Your Simple Healthy Vending Program Works

1. **h.u.m.a.n.** works directly with you to determine your school's customized product mix and on-machine digital content. Only healthy, tasty, and student-tested products are offered.
2. **h.u.m.a.n.** works with your administration, student groups, and nutrition team to kick-off a wellness & marketing campaign centered around the launch (inside your school & in the community)
3. Your expert **h.u.m.a.n.** vending operator installs your machines, orders & stocks the healthy, tasty products, & kicks-off your program with a bang!
4. Your school receives commissions on all product sales and digital advertising revenue generated by the machines.
5. Your students become healthier, happier & better performing & your school earns \$\$!

EXPERIENCE: The people behind **h.u.m.a.n.** are the founders of healthy vending & have been involved in the industry since 2003!

Pop Quiz!
