

Corporate Fact Sheet

Corporate Background

Founded in 1999, iCONNECT is a privately -held, woman-owned small business that develops litigation support software.

eDiscovery Leadership

iCONNECT is an active member of eDiscovery industry associations including The Sedona Conference® and the Electronic Discovery Reference Model (EDRM). Both organizations provide thought leadership and best practices for legislators, educators, corporations, law firms, and software vendors.

Customers

iCONNECT's client roster includes Fortune 500 companies, prestigious Am Law 100 firms (the highest grossing law firms in the United States), Magic Circle firms (top-tier law firms in the United Kingdom) and branches of federal and state governments, and more than 60 Application Service Providers (ASPs).

Product

iCONNECT nXT enables you to process, review, analyze, and produce more data than any other litigation support software on the market, collaboratively and cost-effectively, from anywhere in the world. Call us at 519-645-1663 to schedule a product demonstration, or learn about nXT by attending our Friday webinars that rotate through a series of commonly used functions.
