Militant Islam: Strategic Objectives and Tactics

Synopsis: Provides an empirical and scientific background of Jihadism, Militant Islam, Home Grown Terrorist operatives and the global threat of their agenda to thwart and subvert western democracies. A powerful and sobering lecture designed to increase the situational awareness of government leaders.

Discussion Outline:

5GW addresses the sensitive topic of "Stealth Jihad" by providing empirical data that demonstrates an active attempt by various Militant Islamic groups and "Homegrown Terrorists" groups to subvert American traditions and way of life. It is through the distortion of America's Laws and value for Freedom of Speech, allegations of civil rights aggression, and lack of political will that these groups are gaining significant headway in their quest. This lecture attempts to distinguish between the outcries of "racial profiling" or being "Islamaphobic" and that of the real Jihadism occurring in America and within Western democracies.
