

# Transportation Now

## On-Demand TMS for Medium Size Companies

One Network's **Transportation Now** is a surprisingly affordable, turnkey logistics solution for enterprise transportation synergy and automation that delivers immediate ROI. Available via the Internet on a low-cost monthly subscription basis, **Transportation Now** covers inbound and outbound activities for both enterprise and external trading partners. With over 4,000 companies already on our network — your partners and carriers may already be onboard! Imagine the power and synergy of the connection!

**Transportation Now** also offers a wide range of on-demand services to streamline and automate your transportation processes. Logon anytime from anywhere for up-to-date management of key activities including carrier selection and tendering, claims management, shipment tracking, contract management, financial management, and automated appointment scheduling.

<p><b>Carrier Selection and Tendering</b> Stop phoning and faxing your carriers — Transportation Now will do it for you! With your routing guides and leveraging the multi-enterprise environment, <b>Transportation Now</b> will select your carriers and tender shipments without human interaction.</p>	<p><b>Shipment Tracking</b> Track and trace shipments at any time. <b>Transportation Now</b> centralizes shipment status, making it quick and efficient to find a shipment — and proactively identify if an issue arises.</p>	<p><b>Financial Management</b> Eliminate the world of paper invoices. Create invoices online and send them electronically to your partners and accounting systems.</p>
<p><b>Claims Management</b> Automate the notorious labor intensive claims process. File and track your over, short, and damage claims, with a solution that allows entry, status, and tracking collaboration between your company, your partners, and your carriers.</p>	<p><b>Contract Management</b> Are you storing paper carrier contracts? Simplify maintenance of carrier contracts across your entire enterprise and manage your carrier contracts on-line. You can upload contracts via CSV files and generate freight invoices and payments based on the contracts.</p>	<p><b>Automated Appointment Scheduling</b> We offer the industry's first "do-it-yourself" appointment scheduling solution. Your suppliers, carriers, and even customers can access an intelligent online calendar that calculates the appointment time window based on the supplier, size of order, and loading method. Additional capabilities include real-time notification of cancellations, order changes, or rescheduled appointments.</p>

**Transportation Now** makes it easier than ever to connect with your partners, carriers, and other company users — whether it's your buying team or a dispatcher in another state. Best of all, there's no complicated set-up or IT specialist needed and no costly software to install or maintain.

### Free Trial Program

In fact, you can try it FREE. All that is required is a Web-Browser — no software downloads or IT involvement required. Our no cost, risk free 30-day trial allows you to prove the value of our product *before* subscribing.
