Save Up to 30% off USPS Priority, Express, and Flat Rate Box Rates & Services

Shippers can now have the best of both worlds...postal automation and discounted USPS rates and services. What was previously cumbersome (requiring a postage meter or meeting high package volume requirements), is now made easy with NexxShip. If you haven't recently evaluated the benefits of shipping with the U.S. Postal Service, now might be a good time to re-evaluate and take action.

USPS AUTOMATION WITH DISCOUNTED POSTAGE RATES?

The USPS® is one of the least-costly methods of shipping, both domestically and internationally, for many companies. Not only does it offer flat-rate envelopes and boxes (in which postage is based on volume and not weight), its Priority Mail® service is often times faster than services offered by other carriers.

USPS automation with NexxShip allows small parcel shippers of any size to automatically weigh, rate, and print out a certified USPS 4 x 6 label with Delivery Confirmation barcode, in much the same fashion as they would do for UPS, FedEx, and DHL. In addition, by processing your USPS through NexxShip you will receive up to a 30% off of published USPS Priority and Express rates and services. That's right! Rates that were previously only available to the largest shippers can now be available to you, whether your ship one or one thousand packages per day.

Other direct benefits of shipping with NexxShip's USPS component include:

- No volume requirements to receive discounted rates
- Free Delivery Confirmation
- No assessorial charges for rural or residential delivery
- No address correction fees
- No fuel surcharges
- No USPS rate change until August 2011

Contact Nexxio today to see how NexxShip's discounted USPS rates and services can help improve your bottom-line.

SUPPORTED DISCOUNTED SERVICES:

- USPS Priority
- USPS Express
- Flat Rate Letter
